Delivering Clean Energy Solutions

Company Founder

Abdul Rahman Shehadeh

Jordanian Nationality
Bachelor of Commerce

- Established ALICO in 1975
- Brought Eight new technologies in glass and Aluminum industries to U.A.E.
- Alico manpower approached 4000 employees and \$150 Million turnover
- Share was sold to Emirates Industrial Bank.
- Member of the Jordanian Committee of energy 2012

About US

- Philadelphia Solar **Established in 2007** with 12,000 m² Area and 25 Million USD Capital is the largest Certified solar modules manufacturer in Jordan.
- Philadelphia Solar now is a Top PV player in the PV market worldwide.
- Our main products are Mono and Multi Crystalline modules with 25 years warranty.
- Our modules are certified according to **TUV, CE ISO MCS and CUL** Certifications.
- We cover more than 100 Employees of trained engineers, Quality Assurance, designers, labors and management personnel.
- Our main services include design engineering installation and commissioning of PV systems.
- Philadelphia Solar also provides Turn Key solutions and complete systems.
- We also offer out standing technical support and customer service.

Strategy & Vision

Our Vision

Philadelphia Solar will strive to maintain cutting-edge technology based on green energy and market products of the highest international standards that are backed by -25Year warranty and outstanding technical support

Our Mission

To provide our customers with state-of-the-art PV modules and systems at competitive prices combined with outstanding technical support and customer service

Strategy

Customer satisfaction by offering differentiated products and services to maintain a unique position in the market place through delivering clean energy solutions

Why Philadelphia Solar?

Why PS?

- **Fully Automated Robotic Production Lines:**

Using State of the art automated robotic production lines enables us to supply best modules in the market.

- **High quality modules:**

Our modules are certified according to TUV, CE, ISO 9001:2008, MCS BBA 0026, UL/CUL and CEC.

- **High efficiency and Extra Yield:**

PHS Panels are produced using Grade A high efficiency cells with positive tolerance and higher power output with smaller size.

- **Outstanding Technical Support and customer service:**

We offer outstanding technical support and after-sales service to our customers with customer service officers available 24/7 and technical support to our main customers.

- **Best warranty:**

PHS provides best 10 years product warranty and 25 years linear performance warranty.

- **Full Turn Key Solution Provider:**

We provide full turn-key solutions and complete systems to satisfy our clients with top quality service.

- **Delivery on time:**

We handle the whole supply chain and provide short transit and delivery times to many regions worldwide.

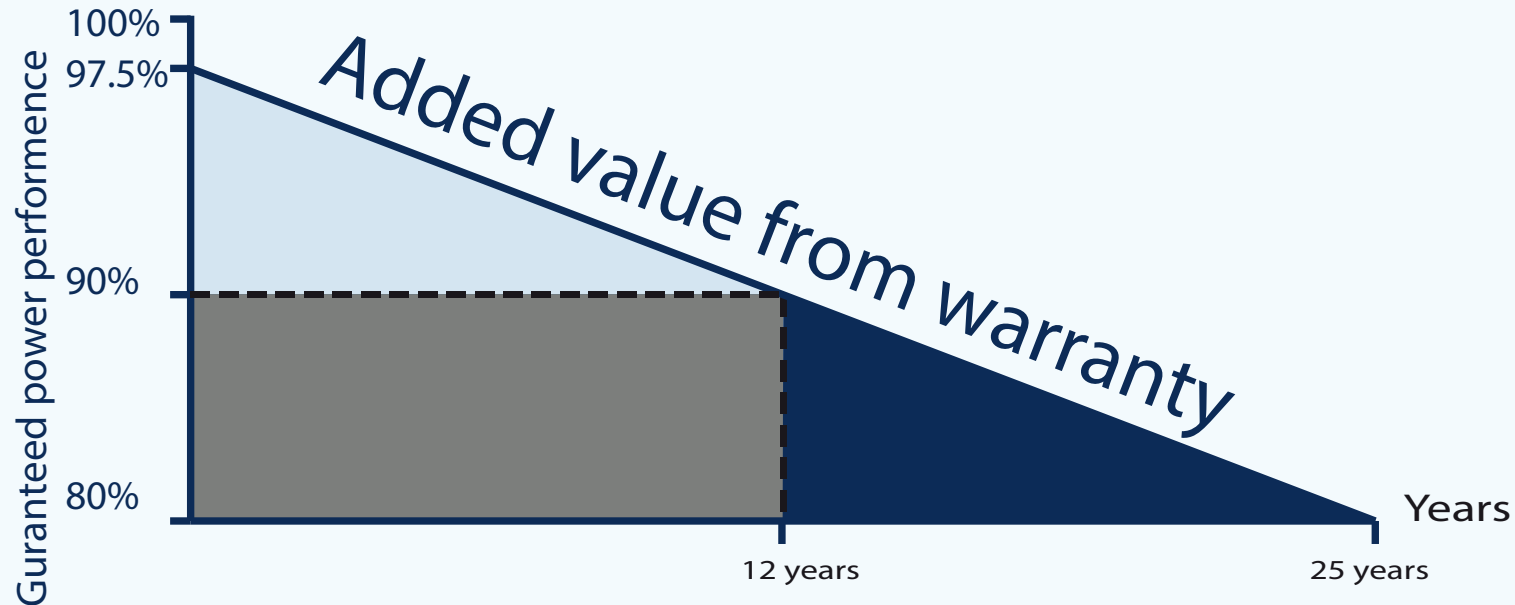

- **Raw Material tested and approved in NREL:**

Highest quality components with TUV Certification with the highest quality and warranty standards are tested and produced in our production.

Warranty

Linear Performance Warranty

12 years - 90% Performance Warranty
25 years - 80% Performance Warranty

FEATURES & BENEFITS

FEATURES

- Optimum maximum conversion efficiency.
- Positive Power tolerance up to 3% extra output.
- High Transparency - low iron tempered solar glass increase energy yield.
- Produced Under systematic quality control covering all processes and check points.
- Fast and Easy Installation.
- Anodized Aluminum Frame for better corrosion resistance.
- Excellent wide variety of solar output modules.

BENEFITS

- Outstanding technical Support.
- After Sales-Service.
- 10 Years on material and workmanship Warranty.
- 25 Years Linear Performance Warranty.
- Marketing Support to Official Distributors.
- Customized mounting solutions.
